DETAILED ACTION

1. Claims 1-53 have been pending

Election/Restrictions

2. Restriction to one the following inventions is required under U.S.C. 121:

Group I. Claims 1-24 , drawn to quantum gate comprising waveguides with coupler classified in 385/15.

Group II. Claims 25-43 are drawn to semiconductor gate device (Active Solid State Devices) used in communicating charge carriers classified in 257/ 9.

Group III. Claims 44-53 are drawn to Quantum encryption and /or encrypted communication classified in 380/256.

Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for either Group I, Group II, or Group II is nor required for the other two Groups , restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2139

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application.
